

To Whom It May Concern.

This document certifies that from the period of 01/01/2025 through 31/12/2025, Calko Group purchased a total of 5 MWh of Renewable Electricity Certificates.

Green Electricity Purchases	2025 MWh
Calko Group – 1450 Louvain Street West, Montreal	5.0
Total	5.0

Measured as of 20/11/2025

Thanks to Calko Group's renewable energy commitment, Bullfrog Power caused wind, solar, and/or low-impact hydro power generators, who are EcoLogo certified, to generate and inject an amount of green electricity equal to 5 MWh. On Calko Group's behalf, Bullfrog will retire or cause to be retired all environmental and emissions credits and attributes which Bullfrog receives, or over which Bullfrog has control which are associated with such Renewable Electricity ("Renewable Electricity Certificates" or "RECs").

The retirement of these REC's will be verified in an audit prepared by a nationally recognized auditing firm, and made public upon completion. Our audits ensure that your renewable energy was produced, accurately counted, and credited to you or your organization. For more information, please visit www.bullfrogpower.com/audits.

Suha Jethalal
President, Bullfrog Power
