

To Whom It May Concern.

This document certifies that from the period of 01/01/2025 through 31/12/2025, Calko Group purchased a total of 3000 m3 of Green Natural Gas Certificates.

Green Natural Gas Purchases	2025 m3
Calko Group – 1450 Louvain Street West, Montreal	3000
<b>Total</b>	<b>3000</b>

Measured as of November 20, 2025

Thanks to Calko Group's renewable energy commitment, Bullfrog Power caused generation facilities that meet strict environmental standards to capture gas from waste and clean it so that it may be used in place of fossil-fuel-based natural gas. On Calko Group's behalf, Bullfrog will retire or caused to be retired all environmental and emissions credits and attributes which Bullfrog receives, or over which Bullfrog has control, which are associated with such Green Natural Gas ("Green Natural Gas Certificates" or "GNGCs").

The retirement of these GNGC's on Calko Group's behalf will be verified in an audit prepared by a nationally recognized auditing firm. Our audits ensure that your renewable energy was produced, accurately counted, and credited to you or your organization.
